

## COVERT AVENUE DETOUR PLAN

### Figure 5 Local Mitigation Options Map

- Local Roadway Mitigation Options**
- A. Prevent EB right turns and WB left turns from Jericho Turnpike onto Covert Ave to stop vehicles who get stuck at the closure and subsequently turn onto 1<sup>st</sup> Avenue. Cone off of turn bays. "No Outlet" signs should be placed.
  - B. Prevent EB right turns and WB left turns from Jericho Turnpike onto S 12<sup>th</sup> St. Cone off of turn bays.
  - C. Prevent EB left turns and WB right turns from Stewart Ave onto S 12<sup>th</sup> St.
  - D. Prevent SB right turns and NB left turns from New Hyde Park Rd onto 5<sup>th</sup> Ave.
  - E. Prevent SB right turns and NB left turns from New Hyde Park Rd onto 6<sup>th</sup> Ave.
  - F. Close Stewart St east of Floral Park Playground/DPW facility to prevent unnecessary through traffic from utilizing this road.
  - G. Place "No Outlet Road Closed" signs to deter EB through traffic from using Stewart St.
  - H. Place "No Outlet Road Closed" signs to deter WB through traffic from using Stewart St.
  - I. Prevent SB left turns from Plainfield Ave onto Magnolia Ave.
  - J. Prevent SB right turns from Covert Ave onto Cisney Ave.
  - K. Update signal head to allow for exclusive EB left turn phase. This will alleviate queues on Stewart Ave.
  - L. Prevent NB right turns from Covert Ave onto Salisbury Ave.
  - M. Prevent SB right turns from New Hyde Park Rd onto Salisbury Ave.
- Options for Whole Network**
- Any turning restrictions can be in place at all times or only during peak hours.
  - Place truck restrictions on all residential streets and enforce with police presence.
  - Create resident only streets in extreme cases. Residents will have special hang tags in their cars that will be easily noticeable for police enforcement.
- Regional Education Signage**
- Signage can be placed on major roadways outside of the construction area instructing drivers to avoid the network all together.
  - Variable message signage can be placed and existing variable message signage can be utilized.
  - Specific roads outside of the construction area could be recommended for use (e.g., Nassau Blvd).
  - Recommended signage locations are Hempstead Turnpike, Jericho Turnpike, Cross Island Parkway, Nassau Blvd.
